Payton Sponring

Growth & Demand Generation Marketing | Fintech & Digital Assets

Selected campaigns from my time as Director of Growth Marketing at Anchorage Digital, a federally chartered crypto bank. I planned and ran paid media and launches across seven product lines, for crypto-native teams and traditional financial institutions, with every claim cleared through legal and compliance.

$1M+

annual paid media I managed, scaled from ~$500K

$5.2M+

closed-won revenue from 250+ opportunities

$1M+

marketing-attributed closed-won from the Prime launch in its first six months

3.5×

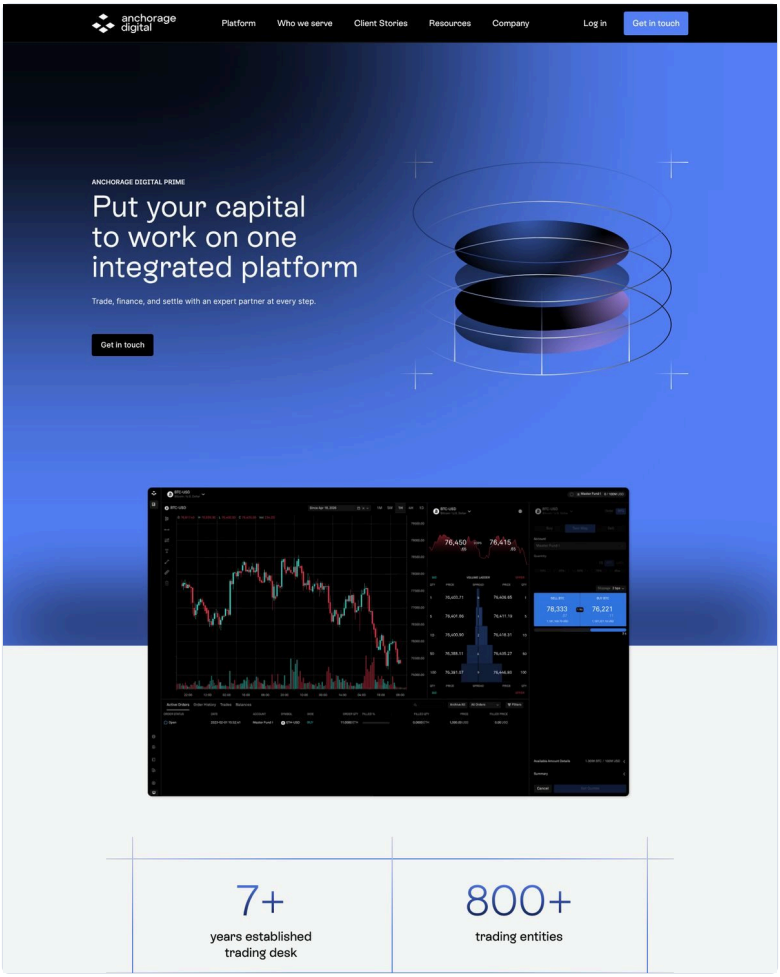

monthly site sessions, ~20K to ~70K

PRODUCT LAUNCH

Anchorage Digital Prime

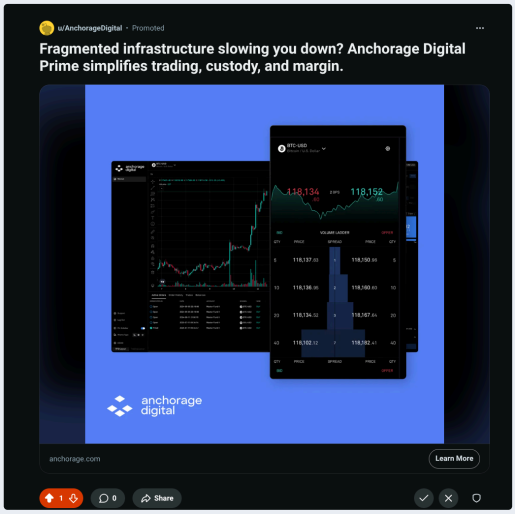

Launch of a unified trading, custody and margin platform for institutions. I led the paid launch: channel plan, audiences, budget and pacing, plus the conversion tracking that tied ad activity to opportunities and revenue. Prime drove $1M+ in marketing-attributed closed-won revenue in its first six months.

BRAND + DEMAND

Stablecoin issuance

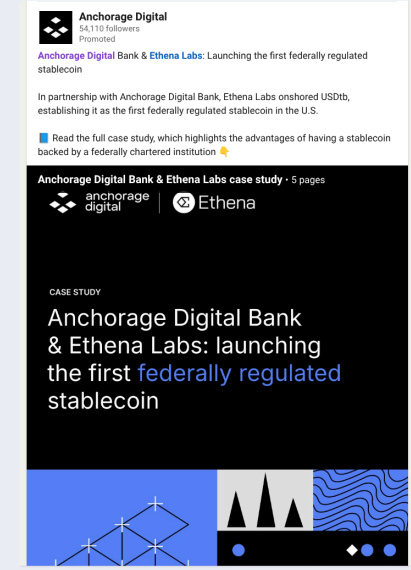

Positioned Anchorage as the regulated partner for companies launching their own stablecoin. The program paired digital out-of-home in New York and in private airport terminals in San Francisco with a LinkedIn case study push on the first federally regulated stablecoin, built with Ethena Labs.

PRODUCT MARKETING TO FINTECHS

Banking & payments

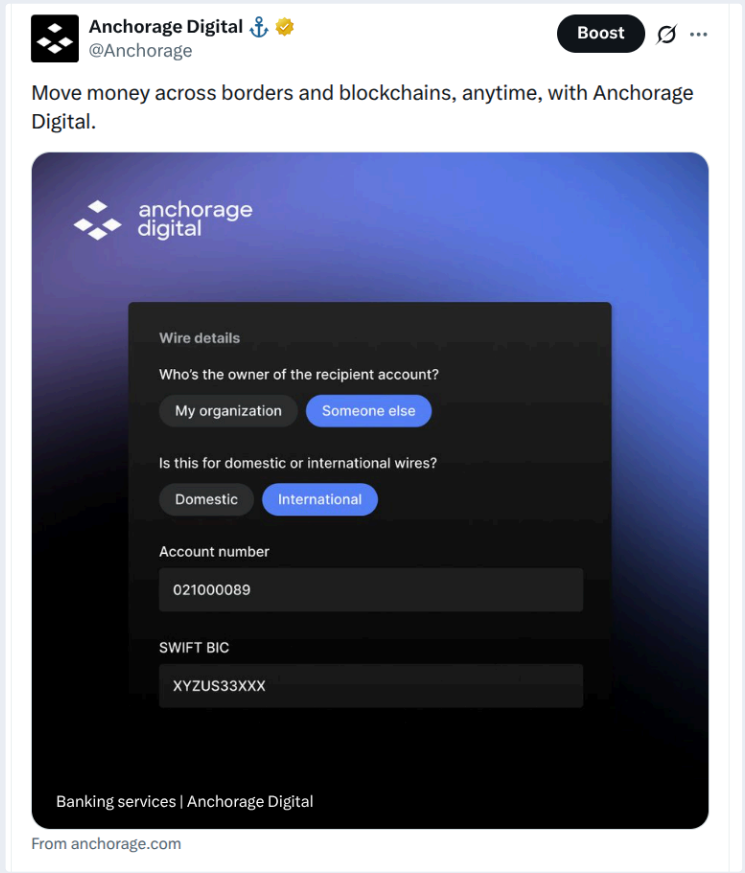

Campaigns for Anchorage's banking services: moving money across USD and digital assets, domestic and international wires, built for fintechs. Run on X with video and static creative.

PROGRAMMATIC DISPLAY

Wealth & advisors

Animated display aimed at wealth managers and advisory firms whose clients want crypto exposure, positioning a federally chartered bank as the safe way to offer it.

PRODUCT LAUNCH

Porto by Anchorage Digital

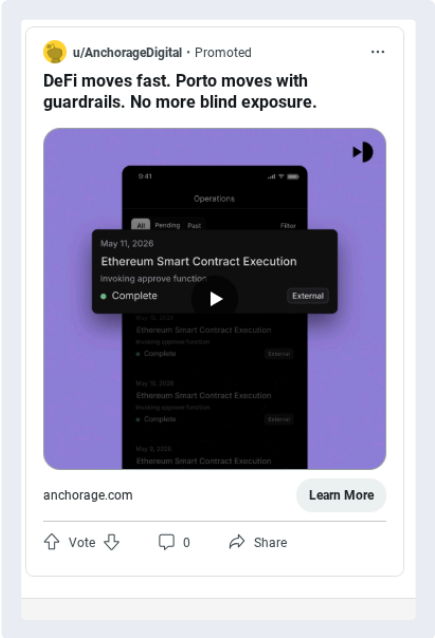

Acquisition for Porto, Anchorage's platform for institutional DeFi. Three message angles ran on Reddit: access without seed phrases, risk guardrails, and API automation.
